

Process: Supply Fulfillment

Author: Jim Castellvi

Date: November 2025

Version: 1.0

1. Overview & Scope

- **Process Name:** Supply Fulfillment
- **Process Purpose:** The retrieval and fulfillment of supplies for lesson activities

2. Process roles & stakeholders

Role	Department	Responsibilities
Instructor	Education	Identify materials, build list, search and locate supplies.
Site Coordinators	Management	Give Lesson plans, manage teams
Inventory Operations	Inventory	Maintain inventory space

3. AS-IS workflow steps

Steps #	Step description	Role
1	instructor receives assigned lesson	Instructor/Site Coordinator
2	Locate lesson plan	Instructor
3	Identify activities	Instructor
4	Determine supplies	Instructor
5	Estimate quantities	Instructor
6	Create supply list	Instructor
7	Goes to basement	Instructor
8	Retrieves Bin	Instructor
9	Search inventory for required materials	Instructor/inventory operations
10	Bring supplies upstairs	Instructor
11	Instructor may verify supplies and/or test activities	Instructor
12	Readies bin for transport	Instructor

AS-IS Process Issues

Affected Step(s): 4-5

Observed Issue: Lesson plans lack standardized supply scaling for classrooms

Classification: Root cause

Operational Effect: Increased risk of inaccurate supply quantity

Affected Step(s): 9

Observed Issue: Staff manually searched the physical inventory, unsure of whether the supplies were available

Classification: Pain point

Operational Effect: Inefficient use of time and unorganized inventory

Affected Step(s): 11

Observed Issue: Lack of standardized verification of supplies

Classification: Root cause

Operational Effect: Risk of Inaccurate supplies and when instructed catch a missing supply steps would loop back to 7
